From the desk of Manager

Dear Readers,

It's time again to pen down my thoughts, as the Manager of this Institution regarding education which prepares real human beings.

I have always thought of exploiting the total potential energy in me and converting it into the kinetic form, I believe that the school management have the vital role it reforming the whole nation and meeting the need for excellence in education on a priority basis. I believe that children are like soft clay and they can be transformed Many way the school likes. For that matter, the school must have a clear vision of what they want out of their students, who are the future of the country. Therefore, in my opinion, the fist role of education in schools should be to inculcate nationalism in children.

Secondary, there has been corrosion in moral values. In the present time compared to the past when I look 30 years back to the time when I began teaching, and compare the times then with the current times. I see a lot of change in the attitude of the students and parents. So I wish that children should develop moral values without which the whole effort of marking a doctor or Itian will go waste.

Third in my priority list is that schools should maintain the cultural values of our country. which is very important without cultural values, we cannot really apprehend our past, which is very glorious, and we have to be linked with that. Teaching only Physics, Chemistry or Biology is not a difficult job; getting students ready 1000 into / IT or for medical training is not a cliff cult job. We have been producing thousand and thousands of doctors but converting them into good human beings is very difficult.

I believe that if God has sent us to the Earth, we should exploit our energies to the best. before we die, we should leave our mark on the soil so that when we leave this world Somebody should feel proud that We have justified our presence over here and We have done our best for the country; we have returned our debts to the country.

I believe that if we all Join hands in making a mission that children are our destiny, that we have to shape their careers and future, we can do so; we have the potential because children come to school at a tender age and it is then that we 3 become their guiding lines. Believe that type of satisfaction the type of happiness, and the type of internal strength you will feel by shaping their future and making them good human beings will be a matter for you to rejoice in the ling days to come. You will feel you have done something good for the community for the Nation.

From the desk of Principal

Educational Institutions are a plenty, all of which impart a learning but it is our prayer that our students go out into the world with the strength, not only to reach and excel in their professional aspirations but to remain beautiful human beings.

A school is always a 'world in miniature' where one receive a 'training for life. where effective meaningful and joyful learning take place. It is here that we begin to learn our lessons of life-to accept challenge, face competition, defeat and failure, and rejoice at victory and triumph.

The Mother Teresa High School is a symbol of progressive and quality education. Our motto "Learn, Achieve and Inspire" captures the essence of our spirit, In our school, children gain an all-round education and achieve their potential not just in the academic field but also in the field of sports and creative arts.

The children of the school evolve as well-rounded individuals who have honed their skills in the microcosm of the school and are equipped to lead and inspire in the microcosm of the world.

Our school is scaling new heights with excellent and reputed professionals training our children in a range of co-curricular activities like football, basketball, Cricket, table tennis and chess to drums, guitar, keyboard, jazz, dancing and theatre.

Most importantly, at the school, we are a team of dedicated teachers and staff, committed to the welfare of the children in our care. For us teaching is a passion and a calling the importance of installing good values in our students is our prime objective as Ralph Waldo Emerson has so aptly said, "What lies behind us and what lies before us are small compared of what lies within us".
